

# NAME \_\_\_\_\_

## NSCAD/NSHRF Application Proposal Template

All Sections are mandatory and must be completed by the applicant

### Expectations and Commitment

#### Applicants:

Provide an overview describing your project as it relates to health research and your expectations including:

- How the proposed artwork project will help raise awareness of elements that contribute to excellence in scientific and health research. **A few examples are proposals for safe or improved Product Design for newborns or the elderly, projects that involve Art as Healing or Art Therapy, projects that involve creative activities for Alzheimer's patients or the disabled, projects that involve wellness promotion.**
- your career expectations

*This section should not exceed one (1) page*

### Other Activities

The purpose of this section is for the applicant to demonstrate their activities and how they will ensure their proposed project is a priority. Describe all activities you will be involved with other than direct work on the project (e.g., University courses, and employment). Estimate the amount of time to be spent on each activity using whatever timeframe (per week/month/year) that best describes the involvement.

### Proposed Project

Outline the proposed project. Applicants should provide an appropriate synopsis of their proposal including question(s), approaches, methods, materials and media, tools and equipment.

*This section should not exceed three (3) pages*

### References

These names should be only faculty members who know you well and who can speak on our behalf if contacted. You will need their permission to list them on the attached form.

### Relevance

Demonstrate the relevance of the proposed project to the mandate of the NSHRF and how the project will potentially contribute to improving the health of Nova Scotians. ***This section should not exceed one (1) page,***
